

Safety Protocols

The safety of our guests and team members is our number one priority. In response to Covid-19 and in compliance with all government and institutional recommendations, we have implemented strict sanitation protocols to ensure your visit is safe, comfortable, and enjoyable.

- All tastings are by appointment only. Please call (707) 895-3737 to book your Lula wine tasting.
- Groups are limited to 6 people and tastings will run 45 minutes.
- All tastings will be held outside. Dress in layers as it can sometimes be chilly and other times quite warm.
- All guests must be 21 or older. No children please.
- We will practice social distancing and ask that you do the same.
- Lula team members will wear masks continually. Guests need to wear masks whenever they are not seated at their tasting table.
- All tables, chairs, restrooms, etc are sanitized and cleaned between each tasting appointment.
- Hand sanitizers will be available throughout the winery.
- When pouring wine, wine bottles will not touch wine glasses. All glassware is sterilized in a commercial glass washer.
- Close proximity to guests is minimized to the extent feasible when pouring wines and taking payments.
- Lula team members maintain robust personal hygiene protocols including handwashing throughout the day, self-monitor for symptoms, and refrain from working if they feel ill.

Thank you for your support, cooperation and patience!
